The Second Order Problem

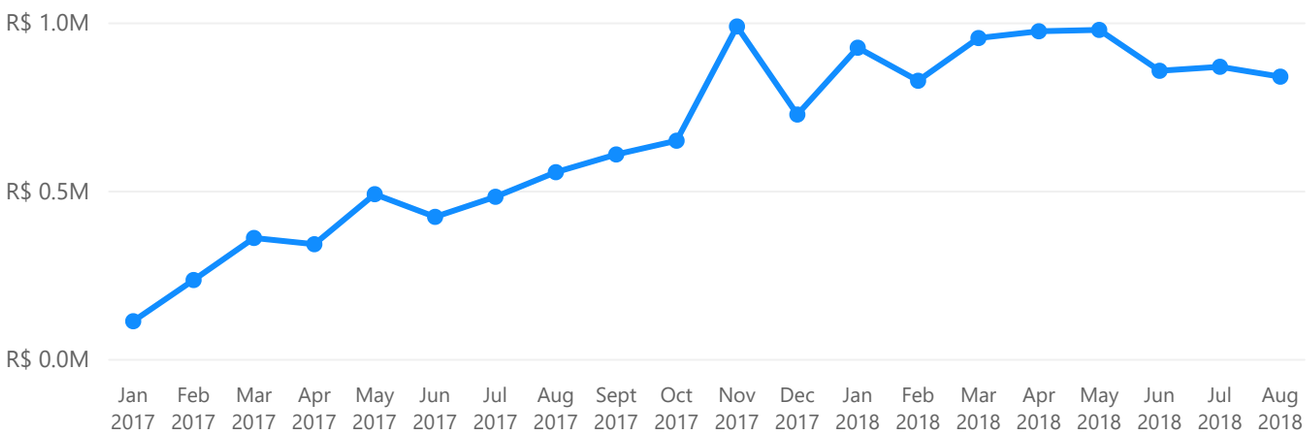

Olist Brazilian e-commerce, delivered orders, Sep 2016 to Aug 2018

Customer state: All

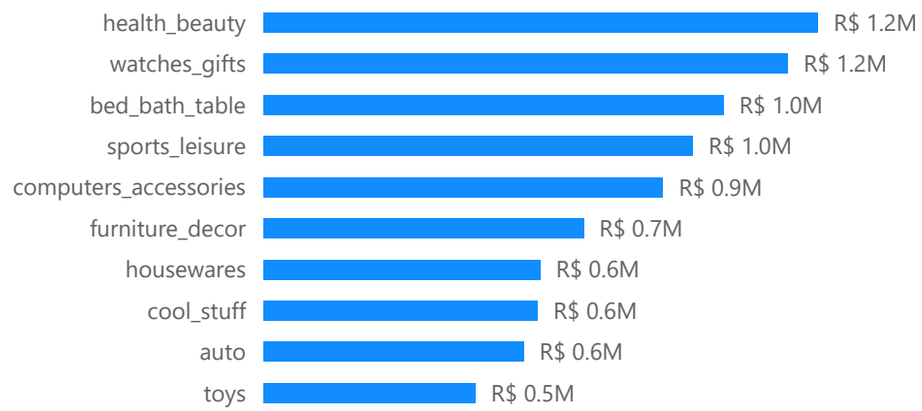

Year: All

Total Revenue	Unique Customers	Repeat Rate	Late %
R$ 13.2M	93,358	2.2%	6.7%

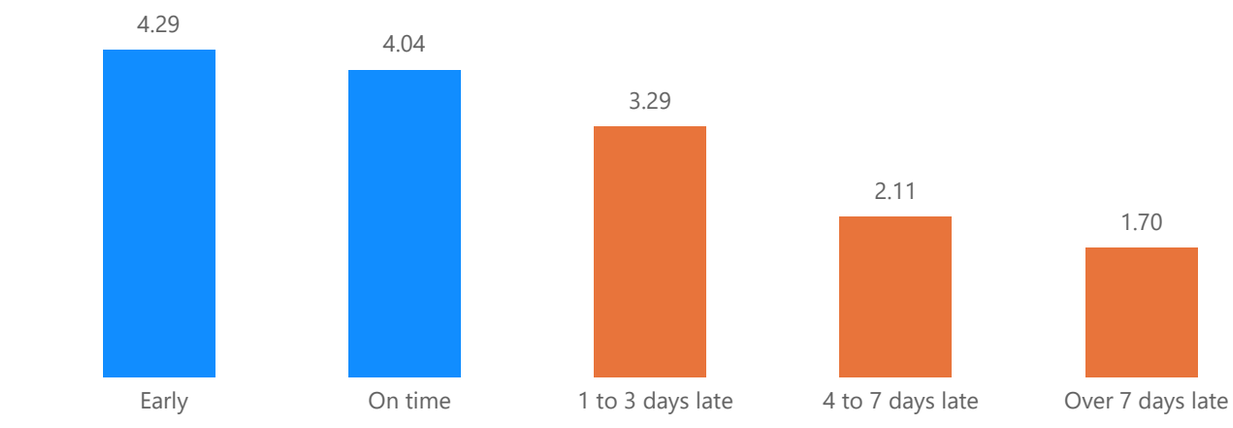

Monthly revenue, Jan 2017 to Aug 2018

Top 10 categories by revenue

Average review by delivery timing

First order: buyers who came back vs those who didn't

Customer type	Avg delay vs promise (days)	Late %	Avg review
One-time	-11.9	6.7%	4.2
Repeat	-12.7	5.0%	4.3

Repeat and one-time buyers had similar first orders: late 5.0% vs 6.7%, rated 4.3 vs 4.2. The first order does not explain why so few customers return.
